

### 3. Add to your URLs.

Open `urls.py` file of `root app` and add this to your urls file.

urls.py

```
from schema_graph.views import Schema
from django.urls import path

urlpatterns += [

    # On Django 2+:
    path("schema/", Schema.as_view()),

    # Or, on Django < 2:
    url(r"^schema/$", Schema.as_view()),

]
```
